

Engineering Central Plant Manager

Apply online at: www.whothels.jobs/atlantamidtown

Description

Warm, wonderful, witty. Welcome to the W Atlanta Midtown. Opening March 2008.

We are seeking an Engineering Central Plant Manager to oversee the operation of the Central Plant of the newest 466-room W Hotel located in the heart of Atlanta's exciting Midtown area. This individual will also be responsible for Central Plant operations of the Colony Square Complex.

Key functions include but are not limited to: Ensure the smooth and safe operation of the central plant facility. Lead a team of Central Plant Operators. Respond promptly and thoroughly to client requests for maintenance.

WHO ARE WE? WHAT DO WE BELIEVE?

The W Atlanta Midtown is Starwood's newest addition. We are a contemporary lifestyle brand that provides our guests with service and luxury in a non-traditional way. Whatever/Whenever service is at the heart of what we do. We believe in providing flawless service, substance with style, and we support innovation through executing new ideas creatively and with a sense of fun.
